- ASEAN Youth Challenge Summit 2023 - Finalist
- NUS Startup Ecosystem Exposure Bangkok 2024- Best Pitcher Award
- Hitachi Young Leader Initiative Bali Summit 2024 - Singapore Representative
- McKinsey Young Leaders 4 Inclusion leader

## Work Experience

### **SAP (December 2024 - Present)**

STAR Program: Gen AI Product Owner (Hybrid)

- Leading the development of AI-driven products, aligning business needs with cutting-edge technology solutions.
- Collaborating with engineering teams to define AI product strategies, improve user adoption, and manage lifecycle execution.
- Conducting data-driven research on AI trends to enhance product positioning and customer engagement.

### **NUS Enterprise (Aug 2024 - October 2024)**

Software Engineer Intern (Part-Time)

- As part of the NUS Minimum Viable Product (MVP) Studio, supported the development and modification of NUS technologies
- Coordinated with stakeholders to develop dashboards, improving product user interfaces and maximise user experiences
- Tested software for bugs and performance issues, documenting processes and fixes

### Jalan Journey (May 2023 - October 2024)

Chief Product Officer

- Leading a youth-run social enterprise dedicated to raising awareness and supporting social causes through interactive digital games for students aged 13-18, supporting over 25 schools in Singapore, Malaysia and Indonesia
- Developed product roadmaps aligned with market trends, successfully creating products that supported over 3,500 students within the first 18 months
- Established and managed partnerships with over 12 organizations, overseeing complete product life cycles to expand the company's product portfolio by 60%

### Aggasys Solutions Pte Ltd (Nov 2022 - May 2023)

System Engineer Intern

- Assisted senior engineers in hardware installation and managing stakeholders for over 15 clients across various products
- Mentored junior interns on product configuration techniques, server room management, improving equipment deployment processes
- Prepared clear documentation for iDRAC management for the department allowing for effective communication with developers and integration of external services
